Interfata Server si Room Alert Account

The image displays two web interfaces for the RoomAlert 3S system. The top interface, 'RoomAlert Monitor', shows the status of a specific device (RA3S-7009DD) with details like MAC, Serial#, Firmware, and Local IP. It also features a sidebar with navigation options like Status, Settings, and Help. The bottom interface, 'RoomAlert Account', provides a comprehensive overview of the system, including a list of triggered alerts with details such as device type, status, and time to next check. A large image of the red RoomAlert 3S device is prominently displayed in the center. The interface also includes a sidebar with navigation options like Dashboard, Devices, Monitor360, Alerts, Sensor Data & Reports, Guidance, Downloads, and More Monitoring. A 'SSL Secure Connection' badge is visible in the bottom left corner of the interface.
